This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Miscellaneous Wagons, Sleighs, etc.

Twenty-seventh Precinct, training cart	1
Thirty-third Precinct, brougham	1
Forty-ninth Precinct, telegraph repair wagon	1
Bureau Repairs and Supplies, single delivery wagon	1
Bureau Repairs and Supplies, double delivery wagon	1
Sanitary Company, test wagons	7
Thirty-third Precinct, sleigh for Captain	1
Thirty-sixth Precinct, sleigh for Captain	1
Fortieth Precinct, sleigh for Captain	1
Inspector, Sixth District, sleigh for Inspector (purchased 1902)	1

Four patrol wagons (two each in Manhattan and Brooklyn), have no regular precinct assignments, but are being used for emergency purposes or as substitutes for wagons undergoing repairs.

It is respectfully recommended that new patrol wagons be provided for the Fifty-third, Sixtieth, Fifty-fourth and Sixty-sixth Precincts, and new single patrol wagons for the Forty-seventh and Seventy-second Precincts, and that the present patrol wagons at the Forty-seventh, Fifty-third, Sixtieth, Sixty-fourth and Sixty-sixth Precincts be overhauled and repaired, to be used as substitutes for wagons undergoing repairs, or to meet other emergencies.

The Seventy-second Precinct, which covers a large territory, is not provided with a patrol wagon, and as there is no prison attached to said precinct the prisoners are conveyed to the adjoining precinct stations, thus necessitating a long drive for patrol wagon and horses called upon to serve the Seventy-second Precinct, as well as a prolonged absence from their proper precincts.

Digitized by Google

The old buggy at Fortieth Precinct Station, for use of Detectives, should be condemned and sold, being of no further use to the Department, and the Captain's buggy now at Seventy-eighth Precinct may be repaired and transferred to the Fortieth Precinct Station to replace the above mentioned carriage when condemned and sold.

It is also recommended that new buggies be provided for use of Captain of Seventy-seventh and Seventy-eighth Precincts, respectively.

Respectfully,

RICHARD COFFEY,
Sergeant in Charge of Horses, Wagons and Equipments.

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
BUREAU OF INFORMATION,
NEW YORK, January 2, 1903.

Total number of dead bodies received at Morgue during the year 1902, 7,932, of which 251 were Police Morgue cases. Identified, 126 ; unidentified, 125.

There were formerly two Patrolmen detailed from each of the Court Squads in Manhattan and The Bronx to the duty of arresting vagrants. A modification of this arrangement was made in the summer of 1902, when four of these men were detailed to the Central Office Squad for this work. The number of men on this work in these different commands was as follows :

Criminal Court Squad, two men from January 1 to June 14, and one man from June 14 to December 31.

Second District Court, two men from January 1 to June 14, and one man from June 14 to December 31.

Sanitary Company Report for the Year Ending December 31, 1902.

January 1, 1903.

Francis V. Greene, *Commissioner of Police:*

Sir—In conformity with the rules of the Department, I herewith respectfully submit a report of the service of this Bureau for the year ending December 31, 1902.

The report contains the number of steam boilers examined (tested hydrostatically) and their condition, together with the number of applicants examined as to their qualifications as engi-

Digitized by Google

neers and firemen to take charge of and operate stationary and portable steam boilers and engines in The City of New York, the number of arrests made for violation of the Steam Boiler Law, and the disposition of the same by the City Magistrates. Also the amount of money paid to the Treasurer of the Police Pension Fund, collected from the owners of steam boilers for certificates of inspection, as provided by chapter 8 of chapter 378 of the Laws of 1897 (Charter).

With great respect,

FRANK MANGIN, Sergeant in Command Sanitary Company.

Engineers and Firemen.

For the year ending December 31, 1902, there were 15,833 applicants examined for engineers' and firemen's certificates to take charge of and operate stationary and portable steam boilers and engines. Each applicant was examined as to his experience, qualifications and knowledge of steam boilers and engines. Of this number 15,206 passed a satisfactory examination and were granted certificates and 627 were rejected.

RECAPITULATION (ENGINEERS).

Total number of examinations			13,725
Of which were certificates renewed		9,073	
Of which were certificates transferred		3,407	
Of which were new applicants		1,245	
Of which passed on first examination	600		
Of which passed on second examination	131		
Of which passed on third examination	26		
Found incompetent and certificates refused			488
Rejected on first examination		331	
Rejected on second examination		63	
Rejected on third examination		7	
Not qualified		84	
Certificates revoked		3

Steam Casualties.

At 9.45 A. M. March 21, 1902—The discharge pipe to the ammonia condenser on the second floor of the building occupied by William Miles & Co., brewers, No. 55 Chrystie street, opened at the seam. James Crowell, Sr., aged sixty-one years, and his son, James, Jr., both of Mosher avenue, Riverdale, were overcome by the fumes of the ammonia which escaped. The former recovered, but the latter died at the Gouverneur Hospital shortly after admission. The seam of this pipe was defective. The pressure on the pipe at the time was much less than usually carried and allowed.

April 15, 1902—A tube in one of the boilers at the New York Theatre, Broadway, Forty-fourth and Forty-fifth streets, became overheated and fused. Owen Lamb, thirty-two years old, of No. 439 West Thirty-eighth street, the fireman who was in the boiler room at the time, was

Digitized by Google

scalded by the escaping steam and died at the Roosevelt Hospital on the day following his admission. No other damage.

April 15, 1902—A two-inch steam pipe at the United Electric Light and Power Company, Nos. 407, 409 East Twenty-eighth street, burst at the welded seam, caused by a defective weld in the seam. No other damage to life or property.

April 26, 1902—A small boiler used for heating the flat building, No. 51 East Ninetieth street, exploded, completely demolishing same, caused by overpressure. No person was injured. This boiler was exempt from inspection under section 343 of the Greater New York Charter.

At 9 A. M., August 29, 1902—An engine at the Edison Electric Illuminating and Power Company, at the foot of East Twenty-eighth street, burst a cylinder head, caused by water being in the cylinder occupying the clearance space between the piston and cylinder head. No one was injured.

October 21, 1902—One of the tubes in water tube boiler of the Brooklyn Glycerine Manufacturing Company, Nos. 251 and 255 Greenpoint avenue, Borough of Brooklyn, split at the seam or weld. The escaping steam severely scalded the fireman, Christian Andersen. There was no other damage.

On November 9, 1902—Boiler No. 2 located at the Pumping Station No. 2, Queens County Water Works, exploded at 8.30 A. M., while in charge of William Digby, engineer, and James Lawson, fireman. The latter was instantly killed, and the former subsequently died from injuries received.

The rupture took place below the longitudinal seam, tearing the whole sheet, which was very much corroded and pitted. The boiler was built in 1896 and was considered a high grade class of boiler. The boiler was inspected February 5, 1902, by John S. Higgins, Inspector of Steam Boilers, Borough of Brooklyn. A hydrostatic test of 135 pounds was applied and 90 pounds of steam allowed.

The safety valve of this boiler was found about 150 feet from the boiler; the lever was broken off and the valve could not be raised from its seat. The stop valve was found near the boiler, closed tight. If this stop valve was attached to this boiler and with the safety valve were both in the same condition at the time the boiler was put in commission as when found, there is no other outlet for the steam or relief for the boiler. The cause of the explosion was due to an overpressure of steam.

The above steam plant was situated on the meadows of Flushing bay and large quantities of salt water were used for boiler purposes. The testimony of experts before Coroner Nott, who held inquests on the bodies of the engineer and fireman, testified that the water was very injurious to the boiler, which caused excessive and rapid grooving and pitting which weakened the boiler.

The fact of the use of this water was not called to the attention of this Department, either by the Water Department of the Borough of Queens, who was the owner of the boiler, or the engineer in charge, William Digby, whose duty it was to so report.

The jury found a verdict in accordance with these facts and condemned the further use of this water for boiler purposes.

Police Department of The City of New York—Telegraph Bureau,
No. 300 Mulberry Street,
New York, January 29, 1903.

Capt. Alexander R. Piper, *Second Deputy Police Commissioner:*

Sir—Hereto attached is the annual report of the Telegraph Bureau for the year 1902, forwarded in compliance with your order of January 20, 1903.

Very respectfully,

M. R. BRENNAN, Superintendent of Telegraph.

Number of Messages Sent and Received at Central Office, Borough of Manhattan, during the Year 1902.

Ambulances	43,360
Commissioners	17,650
Inspectors	6,805
Coroners	5,685
Fires	14,829
Public Works	10,053
Patrol Wagons	13,535
Miscellaneous	35,385
Total	147,302

Digitized by Google

General Alarm Messages.

Missing persons	2,596
General orders	449
Property lost, stolen, recovered	8,791
Fire locations	149
Total	11,985

RECAPITULATION.

Total number of recorded messages	147,302
Total number of general alarm messages	518,673
Total number of dead animal messages	80,062
Total	746,037

The number of recorded messages this year exceeds the number of the preceding year by 21,441. There is a remarkable increase in the number of switchboard connections made daily, requiring the constant attendance of six (6) operators, from 8 A. M to 6 P. M., four (4) from 6 P. M. to 12 P. M., and two (2) from 12 M. to 8 A. M.

Underground Cables.

In the Borough of Manhattan the underground cables of the Department are in good condition, except where they have been disturbed by the various underground construction work in progress throughout the City. Our cables are nearly all small and easily broken, so that they have required considerable repairing during the year.

I beg to call attention to the fact that when the cables were laid—1893-1895—they were intended to carry the business of the Department at that time, but since consolidation they have been taxed to their utmost capacity. There are now no spare wires, which are always required, as the wires deteriorate and have to be abandoned. In some places new sections of cable will have to be provided. It is therefore necessary to obtain an appropriation for the repairing and renewing of cables in the Borough of Manhattan and for the furnishing of new cables in the Borough of The Bronx, where many miles of subways have been constructed during the past few years.

Banks and Exchanges.

The lines and instruments connecting banks, exchanges, etc., with police-stations have worked satisfactorily during the year.

BOROUGH OF THE BRONX.

The removal of the Thirty-fourth, Thirty-seventh and Fortieth Precincts to the new stations necessitated the rebuilding of lines for telephone and signal service, and transferring of apparatus, etc.

Signal Box System.

Number of signals transmitted over signal lines during the year 1902, as follows:

Thirty-third Precinct	19,745
Thirty-fourth Precinct	15,487

Digitized by Google

Thirty-fifth Precinct	15,455
Thirty-sixth Precinct	14,600
Thirty-seventh Precinct	13,560
Fortieth Precinct	12,480
Total	91,327

The Department has not yet been equipped with an adequate system of signal and telephone communication for patrol service. Police Commissioner Greene now has the matter under consideration, and hopes to be able to install this much needed improvement, which will add greatly to the efficiency of the Department.

Mileage of Wire in Operation in Manhattan and The Bronx.

401 miles in cables, size 2 to 62 conductors, underground.
51 miles in cables, on poles and elevated railroads, 4 conductors, aerial.
85 miles on poles, Borough of The Bronx.
20 miles house tops, patrol wagon stables, Manhattan.

557 miles.

BOROUGH OF BROOKLYN.

Number of Messages Sent and Received at Borough Headquarters during the Year 1902, *as follows:*

City Departments	5.393
Fire Department	2,048
Coroners	2,123
Ambulances	12,540
Lost children	2,421
Missing persons	3,125
Stray animals	3,084
Dead animals	13,415
Police Department	146,850
Miscellaneous	13,505
Total	204,504

Number of Patrol Boxes in use in the Department, as follows:

Forty-fourth Precinct	23
Forty-fifth Precinct	22
Forty-sixth Precinct	22
Forty-eighth Precinct	20
Forty-ninth Precinct	15
Fiftieth Precinct	18
Fifty-second Precinct	23

Wagon calls for lost children, 320.

Digitized by Google

The following precinct station-houses are connected on a single wire, viz.: Forty-sixth and Seventy-third; Forty-third, Seventy-first and Eightieth; Sixty-first, Sixty-second and Sixty-third; Fifty-ninth and Sixtieth; Sixty-seventh and Seventy-second, and the Sixty-eighth and Sixty-ninth Precincts. These precincts should be supplied with separate lines in order to secure better service.

In this borough the only lines underground are 1,200 feet; 15 pair cable, Smith street, Headquarters to Atlantic avenue; 375 feet, 75 pair cable, Smith street Headquarters to Fulton, and 1,000 feet, 40 pair cable, on Jay street, Fulton street to Myrtle avenue. All the other lines throughout the borough are strung on the poles of the New York and New Jersey Telephone Company and upon elevated railroad structure. Numerous requests have been received from the Department of Water Supply, Gas and Electricity to remove our wires from these poles. This could not be done, as there was no money appropriated for placing the wires in the subway. This is the cause of constant complaint from the telephone company, on account of the expense of maintaining the poles for the accommodation of City Departments, and at the same time are compelled themselves, by the City, to place their wires underground. It also impedes the work of the Department of Water Supply, Gas and Electricity in its effort to remove the poles from the streets. I therefore urge the importance of obtaining money to place the Police Department wires in the subways in this borough.

Mileage of Wire in Operation in this Borough, as follows:

On poles, miles	412
Underground, miles	32
Elevated road, miles	154
Total, miles	598

The signal system equipment at some of the stations, especially the Fifty-fourth Precinct, also the patrol boxes, are in use many years, and are in some cases entirely worn out. It will be necessary to renew them this year. I would recommend that the patrol, signal and telephone system be installed in precincts not already equipped, beginning with the Forty-third, Forty-seventh, Fifty-third and Sixty-second Precincts, which comprise the most thickly populated sections.

BOROUGH OF QUEENS.

There are 116 miles of police lines in this borough, an increase of over 20 miles of line built during the year. This was made necessary on account of the transferring of Headquarters from Long Island City to Jamaica.

There are twenty-six stations in this borough, connected directly by telephone with Borough Headquarters, Jamaica, on Police Department lines, as follows:

Seventy-fourth Precinct, Astoria.
Seventy-fifth Precinct, Long Island City.
Seventy-sixth Precinct, Flushing.
Seventy-sixth Subprecinct, College Point.
Seventy-sixth Subprecinct, Whitestone.

Digitized by Google

Seventy-seventh Precinct, Newtown.
Seventy-seventh Subprecinct, Glendale.
Seventy-eighth Precinct, Jamaica.
Seventy-eighth Subprecinct, Richmond Hill.
Seventy-ninth Precinct, Far Rockaway.
Seventy-ninth Subprecinct, Holland's, Rockaway Beach.
Switchboard, Jamaica, two stations.
Inspector's office, Jamaica, three stations.
Seventy-fourth Precinct stable.
Seventy-eighth Precinct stable.
Board of Elections, Long Island City.
St. John's Hospital, Long Island City.
Coroner's office, Jamaica.
Telephone Patrol Station, Seventy-ninth Precinct.
No. 1, Atlantic Avenue Railroad Station, Arverne.
No. 2, Long Island Railroad Crossing, Arverne.
No. 3, Long Island Railroad Crossing, Gaston avenue, Arverne.
No. 4, Park avenue, Hammel's Station.
No. 5, Seaside, Rockaway Beach.

The five patrol telephone stations above mentioned were installed last August at important points along the Boulevard, between Far Rockaway and Rockaway Beach. They were established at locations having a considerable number of permanent residents, and they are particularly advantageous during the summer season on account of the large number of daily excursionists to the various places of amusement. Then, again, there is a large summer population at the hotels and boarding-houses in the vicinity, rendering it important that the officers have a means of communicating quickly in cases of emergency. The officers on patrol are required to report from these stations regularly during the tours of patrol duty. It was considered necessary in this Borough to have each station and substation connected with the local telephone exchange, so that people residing in the vicinity, as well as the patrolmen on post, could communicate with the police stations. In the absence of a signal and telephone system the importance of this connection is obvious.

The transfer of borough headquarters from Long Island City to Jamaica necessitated the leasing of a metallic circuit line between Police Headquarters, No. 16 Smith street, Brooklyn, and Police Headquarters, Jamaica, Queens. Provision is made in this year's supplies which will enable us to build our own line.

Borough of Richmond.

There are 59 miles of police lines in this borough, connecting the Eightieth Precinct (Stapleton) with the substations. These lines are all now in good condition, having been almost entirely reconstructed during the year.

On February 22, 1902, a very severe sleet storm occurred, which did great damage to telegraph and telephone lines. The police lines in the boroughs of Brooklyn, The Bronx, Queens

Digitized by Google

and Richmond, many of which were old iron wires, were completely destroyed. In the reconstruction of these lines, the following number of miles of wire were used :

Borough of Brooklyn, 58½ miles insulated copper wire, No. 12.
Borough of Brooklyn, 10 miles insulated copper wire, No. 12, double.
Borough of Brooklyn, 20 miles insulated iron wire, No. 10.
Borough of Queens, 41 miles insulated copper wire, No. 12.
Borough of The Bronx, 17½ miles insulated copper wire, No. 12.
Borough of Richmond, 24 miles insulated copper wire, No. 12.

Respectfully submitted,

M. R. BRENNAN, Superintendent of Telegraph.

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
PRECINCT NO. 42,
NEW YORK, February 1, 1903.

ALEXANDER R. PIPER, Esq., *Second Deputy Police Commissioner, City of New York:*

SIR—I have the honor to herewith foward a report of the work and special work done by the members of this command during the year 1902.

During the month of January, 1902, the United Engineering Company was engaged in making borings for the East River Tunnel off Pier 4, East River, for the Rapid Transit Commission of the State of New York. The work was frequently interrupted and stopped by vessels colliding with the structure erected in the river, causing great loss of property and delaying the work. A roundsman and a detail of men were placed on two tugs furnished by the engineering company and the work was resumed and brought to a successful completion.

During the month of February the German royal yacht "Hohenzollern" arrived at this port and was met and escorted to her dock at Hoboken, N. J., by the "Patrol." A few days after Prince Henry of Prussia arrived and was met and escorted to the pier foot of West Thirty-fourth street. In the meantime the "Hohenzollern" had been berthed at same pier, and during the stay of the Prince and the "Hohenzollern" at this port the "Patrol," with a detail of men, was constantly on guard and also escorted the Prince on all the trips he took on the water; also attended the launching of the yacht "Meteor" at Shooter's Island and kept the river clear of vessels.

During the year many fires occurred on ships and along the water front. The "Patrol" attended and assisted with her fire appliances and towing burning vessels and barges out into the stream and keeping them from setting the shipping and docks on fire.

We also rendered service to the United States naval authorities by sending details of men down the bay, boarding incoming vessels, arresting deserters from the naval service and delivering them to the commander of the Navy Yark, Brooklyn.

We also assisted the United States Custom House authorities and arrested parties engaged in smuggling tobacco on steamers of the American Line, and property of the value of $1,500 was recovered.

Digitized by Google

Many persons were rescued from drowning, and many bodies recovered from the river, and assistance given to vessels that had been in collision.

The members of this command have performed special duty on shore in various parts of Greater New York during the year.

Respectfully,

ELBERT O. SMITH, Captain, Forty-second Precinct.

ARRESTS.

Grand larceny, 2 males; one to one and one-half years in penitentiary and one discharged.
Petit larceny, 1 male; sentence suspended.
Assault, 2 males; discharged.
Vagrancy, 1 male; six months.
Smuggling, 1 male; turned over to United States authorities.
Suspicious person, 1 male; discharged.
Disorderly conduct, 3 males; one fined $5 and two discharged.
Intoxication, 2 males; one fined $5, one fined $10.
Attempted suicide, 1 male; discharged.
Deserters of United States service, 10 males; turned over to United States authorities.

ASSISTANCE RENDERED.

Drowned bodies, 21 males, 1 female; removed to Morgue 18, home 4.
Rescued from drowning, 4 males; removed to hospital.
Injured, 7 males, 3 females; removed to hospital 4, home 6.
Sick in street, 1 male; removed to hospital.
Fits, 1 male; removed to hospital.
The following property was recovered:
25 rowboats, value $982; 16 turned over to owner, 9 to Property Clerk.
1 naphtha launch, value $4,000; turned over to owner.
1 cat-boat, value $125; turned over to owner.
1 scow, value $100; turned over to owner.
15 bags coffee (green), value $150; turned over to owner.
4 bags leaf tobacco, value $1,500; turned over to United States authorities.
500 pounds of copper, value $40; turned over to owner.
1 hawser rack, value $10; turned over to owner.
1,500 pounds manila rope, value $200; turned over to owner.
1 barometer, value $125; turned over to owner.
Money and personal property, value $40; turned over to owner.
Sundries, etc., value $50; turned over to owners.
Total, $7,232.

Union Free School Bonds, District No. 2, Town of Middletown and Southfield Nos. 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, payable as follows: Nos. 41 and 42, December 24, 1915; Nos. 43 and 44, December 24, 1916; Nos. 45 and 46, December 24, 1917; Nos. 47 and 48, December 24, 1918; Nos. 49 and 50, December 24, 1919; Nos. 51 and 52, December 24, 1920; Nos. 53 and 54, December 24, 1921; fourteen bonds, $1,000 each		$14,000 00
		$386,500 00
Cash on hand December 31, 1902		3,380 56
Total capital of Fund		$389,880 56

During the year 1902 the Police Commissioner retired on pension;

132 officers, aggregating	$43,350 00
7 officers increased, aggregating	500 00
85 widows, aggregating	21,264 00
7 widows increased, aggregating	490 00
18 children, aggregating	2,304 00
2 children increased, aggregating	120 00
Total	$123,613 00

The deaths of pensioners are as follows:

68 officers, aggregating	$43,350 00	
1 officer, resigned	1,000 00	
26 widows, aggregating	6,400 00	
14 widows revoked, aggregating	3,870 00	
1 widow transferred, aggregating	120 00	
3 widows (married), aggregating	544 00	
21 children (time expired), aggregating	2,176 00	
		$57,460 00
Increase of annual liability		$66,153 00

There are at this date, December 31, 1902, 2,102 beneficiaries of the Fund, viz.:

Officers	1,102
Widows	828
Children	172
Total	2,102
